

Profile

I'm a devoted full-stack iOS developer with a strong passion for creating top-notch projects. I'm highly skilled in Swift, including many of its libraries and advanced concepts, and I'm adept at solving complex problems. I believe I'm an ideal fit for the iOS developer role at your company. My colleagues appreciate my dedication to quality and my ability to have a keen eye for detail, while not losing sight of the bigger picture. I'm a dependable resource for helping your company achieve its goals no matter the scale.

Projects

Nessie - Reward Yourself [↗](#)

iOS Application

Nessie is a health and wellness app aimed at users who struggle forming new habits in traditional ways. Nessie uses a form of self driven positive reinforcement to encourage users to complete tasks they may struggle finding motivation to complete normally.

Nexus LLM [↗](#)

iOS Application

Nexus LLM is a utility app that allows users to connect to their self hosted Ollama and/or Jan AI LLMs. It gives users access to all their models from a single app, and allows further customization of how they interact with those models.

Professional Experience

iOS App Development Instructor

Dixie Technical College [↗](#)

Apr 2022 – present | St. George, UT

- Creating educational content about iOS development with Swift.
- Working with industry professionals to decide on the most important curriculum for the course.
- Interviewing potential students, and determining their fit for our program.
- Providing flexibility for teaching styles, and differing levels of ability for students.

Web Developer

HFB Technologies [↗](#)

Jan 2022 – Apr 2022 | St. George, UT

- Leveraging given tools to create websites for clients.
- Taking lead on the design, and functionality of websites.
- Staying within a given window of time to get projects of varying sizes completed.
